

Degree Programme in Aviation Business

Are you ready for a take-off with one of the fastest growing industries and employment providers in the world. Aviation Business degree programme provides a fast track for future aviation professionals to get recognised qualifications and industry contacts.

As a student, you will develop expertise in the aviation business environment and an understanding of key aviation business processes. You will acquire highly relevant skills in sales and services, business development, and financial management.

Your studies will take place in projects commissioned by prominent international aviation stakeholders. These tasks will develop your professional skills, such as project management, leadership, communication, strategic thinking. You will also develop analytical skills and resilience to excel in your future career in the aviation industry.

The studies are conducted in English. International students are also offered Finnish areal studies to support their integration into the Finnish society.
