Admission statistics of Bachelor's degree programmes

What are my chances of getting in?

On this site you will find application statistics of our Bachelor's degree programmes. International Business (full-time studies) and Business Information Technology programmes take new applications twice a year and the other degree programmes once a year. If you want to see older statistics from the autumn of 2015, they can be found from [Vipunen - Education Statistics Finland](#).

Please note that the admission criteria and the scoring systems may have changed. Scores received in different intakes may not be directly comparable.

How can we help you?
